The CAPLES STRUCTURE No. 4 is a two storey, three bay stone farmhouse, some distance west of the other CAPLES STRUCTURES (q.v.), probably not part of the town of Dover. Traditional in form and extremely plain in detail, it probably dates from the middle of the 19th century. One or two frame additions extend to the north, possibly incorporating earlier work, but resurfaced recently with aluminum siding.

The principal entrance is in the middle bay of the south front; it and the window above it are slightly west of center. Windows are 6/6 and wooden lintels support masonry above all openings. The gable roof extends over the walls, including the end ones, with moderate, plain overhangs.

The interior of this structure was not examined.
